-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 August 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Remarks***

1. Claims 1-21 are pending.
2. Attempts were made and a message left for the Applicant on 12/4/2008, so that an Examiner Amendment could put the claims in condition for allowance by resolving the outstanding 35 USC 101 and 112 issues, but the Applicant was unavailable.

### ***Allowable Subject Matter***

3. Claims 15-17 are allowed.
4. Claims 1-14 and 18-21 are allowable if these claims are amended to overcome the 35 USC 101 and 112 rejections of record.

### ***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance: Claims 1-21 are allowable over the prior art of record. The closest prior art of record Szirmay-Kalos et al. ("Development of process visualization systems: an object-oriented approach", Journal of Systems Architecture: the EUROMICRO Journal archive, Volume 46, Issue 3 (January 2000), Pages: 275 - 296, ISSN:1383-7621, Publisher Elsevier North-Holland

Inc, New York, NY, USA), teaches a model-view-controller visualization development system, however it fails to teach visualizing dependency relationship from a first controller to a second controller, these limitations being indicated in claims 1, 15 and 18 as "directed from the first controller to the second controller and from the second controller to the model", and in claim 21 as "between the first controller and the second controller and between the second controller and the model".

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
8. Claims 12-14 each recite the limitation "the method" in line 1. There is insufficient antecedent basis for this limitation in the claim. For purposes of examination it is assumed the applicant meant "the computer program product".

***Claim Rejections - 35 USC § 101***

9. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

10. Claims 1-14 and 18-21 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.
11. As per claim 1-14 and 21, these claims are drawn to a computer program product but not directly to a statutory storage medium, which is required for the claim to be statutory. Accordingly, these computer program product claims are rejected as non-statutory for failing to be drawn directly to any such storage medium.
12. As per claims 18-20, these claims are drawn to methods which are not statutory processes because they lack physical transformation or machine implementation that are required for these claims to be statutory.

### ***Conclusion***

13. The prior art made of record, listed on form PTO-892, and not relied upon is considered pertinent to applicant's disclosure.
